## REV. W. E. BROWN WELCOMED TO COLEMAN - BLAIRMORE

On Tuesday evening in St. Alban's church, Coleman, the Right Reverend H. R. Ragg, Bishop of the Diocese of Calgary, conducted the impressive Induction Service of the Rev. W. E. Brown into the Incumbency of St. Alban's of Coleman and St. Luke's of Blairmore. He was assisted by Canon Axon, Rural Dean of the Macleod Deanery, and Rev. Green, principal of the Indian school at Brocket.

Bishop Ragg introduced his address by saying—that he welcomed this opportunity of meeting the parishioners again. He then chose "Stewardship" as the subject of his discourse, using the second verse of chapter 4, 1st Corinthians, as his text. He stressed the need for co-operation between the Incumbent and his people in carrying on Christian work in the community.

After the service, the congregation gathered in the parish hall, where Mr. W. T. Pettifor, acting as chairman, called on Mr. Sidney White, of Blairmore, who in a few well chosen words welcomed the Rev. Brown and Mrs. Brown to the parishes of St. Alban's and St. Luke's. Canon Axon, Rev. Green and Bishop Ragg also spoke briefly. Mr. and Mrs. Brown responded, expressing sincere appreciation for the welcome they received. Mr. Brown said he had come a long way (from Newfoundland) to be their Rector, and requested the co-operation of the parishioners in his ministry here.

A social hour followed, during which the Ladies' Guild served a delicious luncheon.

"V"

## GOLF NEWS

On Sunday next, May 25, the Blairmore Golf and Country Club will be the scene of the second monthly club tournament.

Play will commence at 1:30 p.m. with a mixed two-ball foursome.

Lunch will be served in the afternoon by the ladies of the club.

"V"

## THE ALBERTA COAL BRANCH

approximately 120 miles west of Edmonton, was this week digging itself out of one of the heaviest snowfalls since 1917. The branch was isolated for four days. In some places the snow was from 12 to 50 inches deep. Cadomin and Luscar areas had 36 inches. The roof of the Mountain Park skating rink collapsed with the weight, estimated at 250 tons. Railway and telegraph communication was disrupted from Sunday until noon Wednesday.

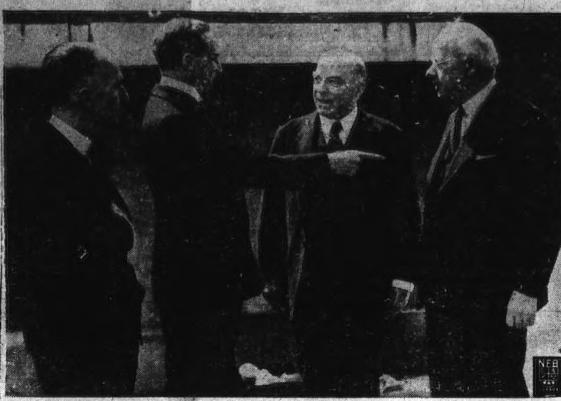

"V"

An employee of one of the district prop camps left his employment without permission of the Blairston office of the Unemployment Insurance Commission. For this infraction of National Selective Service regulations he was found guilty and sentenced to a fine of \$50 or in default two months imprisonment at Nelson, BC.

"V"

Rev. Robert Magowan, of First United church, Lethbridge, has been chosen head of the Alberta conference for 1944-45, succeeding Rev. W. T. Young.

MACKENZIE KING IN LONDON

Speaking before members of both Houses of Parliament in London on Thursday, May 11th, Prime Minister Mackenzie King stated: "Like the nations of which it is composed, the British Commonwealth has within itself a spirit which is not exclusive, but the opposite of exclusive. Therein lies its strength. That spirit expressed itself in co-operation. Therein lies the secret of its unity. Co-operation is capable of indefinite expansion. Therein lies the hope of the future." Above, before the first talk of the conference between Commonwealth Prime Ministers began, Vincent Massey, High Commissioner for Canada; Sir Archibald Sinclair, British Air Minister; Canada's Prime Minister and Peter Fraser, Prime Minister of New Zealand, hold an informal outdoor discussion.

## "BATTLE OF BRITAIN"

### AT COLEMAN TODAY

The big show, "Battle of Britain," is being staged at Coleman this afternoon and tonight under auspices of the CWAC, who invite you to be present. Take this opportunity to see the most spectacular war pictures ever to be filmed under actual war conditions, photographed in England during the height of the Blitz, and other authentic war pictures.

You have heard about the remarkable training the girls get in the CWAC. Now see them in action. The big show is free.

"V"

## A.M.A. WILL PRESS

### LICENSE FEE CUT

Plans for renewed effort to secure a reduction in motor license fees will be discussed when provincial directors of the Alberta Motor Association meet at Calgary on June 3rd.

The association has expressed strong objections to the discriminatory nature of the reduction given last March, which was confined to cars of 1934 model or earlier. It was contended that this was grossly unfair to more than 50,000 owners of newer models.

The AMA has pointed out that the large percentage of motor accidents in the province involve old cars. It feels that the latest reduction has penalized motor car owners who bought newer cars and thus play their part in bringing greater safety to motoring on the highways.

In various sections of the province there is growing support for the AMA demands for a general reduction in motor license fees.

"V"

The so-called evils of beer-drinking eyes H. T. Halliwell in the Macleod Gazette, are grossly exaggerated by those opposed to its sale. We have no brief for the brewers or the retailers, they are well able to fight their own cause. Just what purpose the commission now sitting to investigate the sale of beer will accomplish, we fail to see. The sale will go on as usual, the arguments for the controlled sale of beer will prevail against added restrictions of those in force, and as far as our opinion goes, the sittings of the commission will give the Prohibition advocates a chance to set up straw men only to have them blown over. The open sale of beer in public places within prescribed hours is far better than driving beer-drinkers into holes and corners to indulge in their favorite beverage.—Ex.

## SERGT. ROLAND MARCHANT IS KILLED IN ACTION

Word was received from Ottawa yesterday by Mrs. Marchant (nee Jean Upton), stating that her husband, Sgt. Roland Marchant, has been killed in action overseas.

"V"

## TRADE VITAL TO PROSPERITY

Ottawa, May 22.—New phases of the Dominion government's intensive plans for post-war prosperity in Canada have been revealed by Hon. Jas. MacKinnon. Stressing export trade as vital to agriculture and industry, the minister of trade and commerce says federal authorities are working now to see that "the markets of war are replaced in the largest possible measure by the more enduring markets of peace."

Citing the export credit plan, which will be used to help stimulate sales outside Canada, Mr. MacKinnon announced expansion of the Dominion's commercial intelligence service in other countries, creation of an export planning division in his department and establishment of an inter-department committee at Ottawa to work for favorable trade conditions.

He also favored a strong Canadian merchant marine after the war, so that the Dominion will not be dependent on shipping of other nations to carry export products. Last year Canada's exports exceeded \$3,000,000,000, more than twice that of any previous twelve months. During 1943, the Dominion became the third largest trading nation in the world.

Mr. MacKinnon says the government is already active to retain Canada's big markets in Britain and the United States after the war, while at the same time developing possibilities of farm and industrial sales to Central and South America, Europe, the Orient and elsewhere. The outcome of measures being taken, he felt, will go a long way to assure an enduring and expanding prosperity for all our people." He emphasized that Canada is using all its influence to have world tariffs lowered.

"V"

Two Cayley men, John N. Wipf and John B. Wipf, brothers, aged 21 and 27, were fined \$50 and costs or three months in jail with hard labor recently for going to an alternate service camp under National Selective Services regulations, after having been classified as conscientious objectors. They elected to serve the jail term.

## COWLEY HAPPENINGS

A million dollar rain fell over this district on Friday, bringing renewed cheer to everyone.

Word has been received by Mrs. X. C. Kaupp from Vancouver of the birth of a son on May 2nd to her sister, Mrs. William Brown (nee Nicholas), whose husband is an army man.

Mrs. Wilfrid Fortier has returned from Calgary, where she had been for medical treatment for a few weeks.

Mr. and Mrs. T. E. Murphy have received word of the birth of a daughter to their daughter, Mrs. J. T. Meville, whose husband is in the armed forces.

The monthly meeting of the Red Cross was held on Thursday afternoon last, when Mrs. William Hawkinson kindly lent her home for the occasion.

Mrs. H. C. Morrison is visiting her daughters, Miss Helen Morrison and Mrs. Austin Brownie and family, and her sister, Miss Edna Fulton, in Calgary this week.

Mr. and Mrs. M. A. Murphy had as guests on Victoria Day Mr. and Mrs. Forest Blackburn, Mrs. Clarence Adams and Mr. and Mrs. Cecil Blackburn, of Twin Butte; Mr. and Mrs. Gus Neumann and son Kennedy, Mrs. Ted Ayre and daughter Lynne, Lorrie Blackburn and Miss Bessie Oddie, of Pincher Creek.

A hardball tournament was held here on Empire Day under auspices of the Cowley Young People's Society. Despite the cool and windy weather, the event was a success. Four teams participated, Macleod STS versus Hillcrest Miners and the Peacock AF versus Blairmore. The Macleod-Hillcrest game resulted in a win for Hillcrest by a score of 4 to 1, and the Peacock-Blairmore game by Pearce with a score of 4 to 1. With only a short intermission, the final between Peacock and Hillcrest was played, resulting in a win for Pearce by a 5-2 score. Strong winds prevented much, spectacular hitting, but the pitching throughout was good. Umphires, Rosec Delini and Ed. La Brie. The crowd was favored with a refreshment booth, which did a roaring business. The usual dance at night was largely attended, music being supplied by the Macleod Air Force band which also played on the ball grounds throughout the day.

"V"

The hospital ship Lady Nelson arrived at Halifax during the week with between 500 and 600 battle casualties.

## PAUL CHARDON PASSES

The remains of Mr. Paul Chardon, who passed away Sunday night, were laid to rest in St. Anne's Catholic cemetery in Blairmore on Wednesday afternoon, following service held at St. Anne's church by Rev. Dean M. A. Harrington.

Quite a large turnout of friends and relatives from all sections of the Pass attended.

The late Mr. Chardon, a native of France, had been a resident of the Crows' Nest Pass for close on forty years. Prior to taking up residence here he resided at Coal Creek and Fernie. Some twenty-five years ago he took over a restaurant and grocery business in Blairmore, in which he proved successful.

Several months ago he was stricken with illness, and gradually grew worse till the end came. He is survived by his wife and one daughter, Mrs. R. Pinkney.

Mr. Chardon's brother, Frank, predeceased him six years ago, dying on May 21st and buried on May 24th in Blairmore.

"V"

## FEDERAL CHECK-UPS

### ON COUPON BOOKS

Federal officials plan to make check-ups on the gasoline coupon books to ensure that the motorist's license number is written on each coupon, according to information received by the Alberta Motor Association.

Recently, officials at Vancouver seized many of these books when the motorists drove in to filling stations to get fuel supplies. The books were taken to the enforcement officer's headquarters and motorists had to go and write their license number on each coupon in the presence of an official before the books were returned to the owners.

Federal officials say the new regulation is a protection for motorists in case of the loss of books, as it prevents unauthorized persons from using the coupons. Also, it is a deterrent to "black market" operations.

The AMA urges motorists to see that their license number is written on each coupon, as required by the federal regulations.

**Here a CWAC  
There a CWAC'**

**Travel!**

East is east and west is west, and young women from both ends of Canada will meet for basic training at Kitchener, Ont. May 15 the western basic training centre at Vermilion, Alta., closed and all recruits are now sent to Kitchener for their four-week basic training course. On return to her own end of the country, the average young woman in khaki will have gained a clearer picture of the country. Canada will no longer be a vast unknown expanse. It will be a well-known itinerary dotted with little place names, each meaning a good friend.

#### Leisure Time—

Excitement ran high among members of the CWAC in Montreal recently when a series of off-duty classes in rifle shooting commenced at the Duke of York Hussars Armoury. Thirty Corps members including officers and ranks registered for the initial class. The enthusiasm that this new sports venture had met with among Army girls is unprecedented. Although firearm drill is definitely not in the syllabus for CWAC training, the girls expressed the desire to learn a little more, if only as a recreational project, about the weapons used by soldiers they are replacing on active duty.

**Personality**  
Lance Corporal Ann MacDonald of Montreal is a truly versatile CWAC. She manages, besides her Army position in the Directorate of Public Relations, Ottawa, to teach Sunday School, work with the CWAC paper, take a correspondence course in English, study psychology and be an active adherent of both Corps, Church and social activities. Born in London, Eng., Ann is the daughter of Mr. and Mrs. C. G. MacDonald now of Mont-

real. She is a granddaughter of late Sir Charles Roberts, Canadian Dean of Letters.

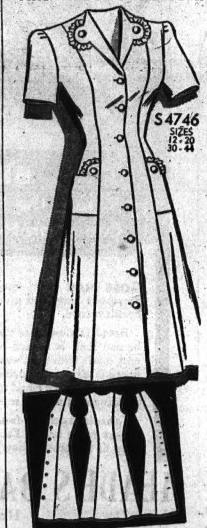

#### Total-War Family—

It's strangely quiet around home for the Thomas Smiths of Edmonton, Alta., these days, because all the "kids" are on active service. Three of the fighting Smiths wear the khaki of the CWAC and the fourth, Flying Officer Stewart Smith recently joined the D.A.R.C. with the R.C.A.F. First of the girls to answer the call to the colours was L-Cpl. Margery Smith, in March 1943. Margery was employed in the recruiting office in her home town. She must be good, for she was followed in June by Pte. Helen Smith who is currently employed at National Defence Headquarters in Ottawa, and Rowena waited only for her eighteenth birthday this April to take a stand beside her sisters in the CWAC. She is now undergoing her basic training.

#### Souvenirs—

Pieces of shrapnel collected in London will become souvenir ash trays now that Lieut. Isabel Chevrel of Winnipeg, Man., has returned to Canada. One of the original members of the Corps, Isabel entered in 1941 and was sent overseas with the first contingent of CWACs. She became an armorer, then an Ordnance officer and then as a platoon commander of No. 43 Company for 16 months. Among other souvenirs picked up during her overseas sojourn is a parachute attached to a bomb, which she found in Hyde Park.

#### This Week's Pattern

By ANNE ADAMS

A slenderizing feminine frock that's a cinch off the waist to make is Pattern R4746. Note how few pattern pieces. What's more it buttons down the front so that you can slip it on without spoiling your hairdo. A style to wear to the office, at home, or in the street.

Pattern R4746 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42, 44. It takes 3½ yards 55-inch fabric.

Send twenty cents (20c) in coin (stamps cannot be accepted) for this pattern. Write plainly. Size, name, address, and name and address to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E. Winnipeg. Mail order customers because of the mails delivery of our patterns may take a few days longer than usual."

#### DO NOT REALLY FLY

Flying fish do not fly, but merely glide through the air. After getting up speed in the water, the fish takes to the air, and wind current and momentum do the rest. Considerable speed is attained and a distance of 600 feet is often covered by these fish.

A yellow flag hanging from a ship's halyard indicates that there is no silence aboard.

#### OUR COMPLETE SHORT STORY—

### Plain Stubborn

By JAYE ELL

McClure Newspaper Syndicate

No, you're wrong! That wisecrack of yours about me buying so much from you ain't for the Elberian boxing matches tonight. I'm not going. But to keep you from popping with curiosity I'll give you the lowdown.

Mike Casey and me've been very close since we was kids at the orphanage. We always done everything together; even joined the police force at the same time. Mike's like a bulldog. Stubborn. Hangs on to an idea, come fire or high water. But even he could be wrong. We never separated much. But I got to admit that once Mike did know a good thing when he saw it—especially when it was Mary Gray who runs the Doughnut Palace.

When we was off duty you'd always find me over at the Palace doing some doughnutin' in the hole, and making believe we are listening to the radio, but we was really looking at Mary. She always treated us both alike, giving a date to me and then to Mike, until after the story was in the paper.

Many a time after leaving the Palace Mike'd say to me, "Kerrigan, when Mary and I get married we'll have you out to dinner sometime."

"Yeah?" I'd always say. You mean when Mary marries me you'll be lucky to stick your big feet under our table sometime?"

"Phooey!" he'd say. "You haven't a chance."

I'd get exasperated. "Look, Mike," I'd say, "I don't see Mary running out to greet you when we come in the Palace."

And it always ended with Mike giving me the grin.

I guess you read about it in the papers. How me and Mike was in the prow car when we bumped into the stick-up guys who grabbed the door from the theatre and how we shot it out with them. And how they put a couple of slugs in Mike before they was taken.

At the hospital the doc said Mike didn't have much of a chance, although they were going to give him a blood transfusion and use me to do it.

The doc explained it: "Mike's lost too much blood. He might manage to pull through if he could be made to understand he has something to live for."

I went down the hospital hall not feeling too good and trying to think of something. I had about given up all hope when I came face to face with Mary.

"Mister Kerrigan," gasped Mary, "the doc just told me." Her blue eyes were misty like the frost on a refrigerator glass.

"Hello," I said.

"Mike's got to live," she said. "He can't die now. He's the best friend I... you... we have."

When I saw that look on her face I thought, so that's it. Then I got the idea.

"He'll live, Mary," I said. "I just thought of something."

And you know what she done?

#### There's Something In This Name

Some names are lyrical; some strong; some have a delicate sound. But when it comes to cookies, it's more than the name that counts. The taste does the trick.

Sometimes, of course, you find a name and a taste that go perfectly together. One of these is "Princess Pats". You'll realize how appropriate it is when you sample these royal little cookies.

#### PRINCESS PATS

2 eggs                          ½ teaspoon baking powder  
1 cup sifted brown sugar                  1 cup All-Bran  
1 tablespoon melted butter                  ½ cup chopped nut meats  
1 ¼ cup flour                          Beat eggs until light. Beat in sugar and butter. Sift flour, baking powder and salt together. Crush All-Bran into fine crumbs, mix with flour. Gradually stir dry ingredients and beat in egg mixture. Add nut meats. Turn into a shallow pan and bake in moderately hot oven (425 degrees F.) about 8 minutes. Cut into bars.

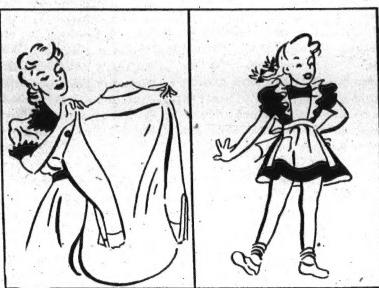

Yield: 32 bars, 4 x 2½ inches; 1 pan 7½ x 11½ inches.

# CEREALS HAVE A PLACE AT ANY MEAL, ANYTIME !

Busy housewives appreciate Kellogg's ready-to-eat cereals more and more every day. Kellogg's are a satisfying dish anytime—for breakfast, lunch, odd-hour snacks. Ready in 30 seconds.

#### MAKE IT INTO A DRESS

When a man's shirt is so worn at the neck and cuffs that it can't be worn, there is still plenty of material to make a cotton dress or an apron. Where possible, use the buttons or button holes down the front—it saves an hour's work. Two worn shirts of contrasting color can often be combined to make a smart cotton frock for your eight-year-old daughter.

#### Extra Rations

#### Extra Farm Help May Get Extra Rations This Year

Arrangements have been made by the Wartime Prices and Trade Board to provide this year extra rations of food for extra farm help engaged seasonally in all parts of Canada on this basis: a limit of five meals per person per day.

Any farm household in Canada, engaging seasonal help for such work as threshing, silo filling, woodcutting, and other work, will be able to make application for extra rations for these crews up to a limit of five meals for each member of the crews, if five meals are being served each day. This rule was in effect in 1943 but only in a comparatively small number of cases was it utilized to the limit. Application forms for the extra rations will bear a statement this year to the effect that rations may be applied for up to five meals a day per person, if required.

Officials of the Wartime Prices and Trade Board believe that this extra allowance will enable farm homes to meet their needs for most rationed foods for the extra gangs. No further concessions can, however, be made for sugar.

#### NO DOUBT ABOUT IT

The Brookville Recorder and Times says: Anne O'Hare McCormick writes in the New York Times that "the frontier between Canada and the United States is as nearly invisible as any boundary yet established between nations." Maybe so but anyone trying to cross it in these days of currency and other restrictions soon realizes it is there all right.

Bananas, grapefruit, grapes, lemons, oranges, tangerines and tomatoes are berries to a botanist.

#### Expect To Gain Power

#### Himmler Making Plans To Rule Germany After The War

Himmler's Schutzstaffel—now the core of Nazism—has elaborately detailed plans to go underground in the event of German defeat, according to authoritative information at

The Schutzstaffel now has about 20 divisions which are organized not only on a military basis, but in a pyramidal cell system, so that in case the Army disintegrates, the SS can remain organized and functioning as a secret body, according to this information.

The cells consist of five members with a leader. Three such cells compose a squad with a leader, three squads forming a group.

Himmler and other SS leaders, it is said, are convinced Germany will be defeated, but are hopeful the SS can get control and return Germany to "Neo-Nazism" in the chaotic period which they expect to follow the war.

The plan involves abandonment of Hitler and most other well-known Nazi leaders, placing the responsibility for defeat on them.

The SS expect support from the Army and Junker class when it attempts to regain power.

#### WHEAT CROP TROUBLES

Canada's smallest wheat crop in the past 20 years was 180,000,000 bushels harvested in the bad drought year of 1937. Canada's largest wheat crop (566,736,000 bushels) was produced in 1928. At first the 1942 crop was thought to be the largest, but it now takes second place on a final estimate of 556,684,000 bushels.

South America receives approximately twice the average rainfall of any other continent.

## THE STORY OF INFLATION

... IN ONE  
EASY LESSON

In wartime, more people are working

and there is more money to spend

but half of what is made is for war

so consumers can't get all they want

and people will bid more for what is available

so prices go up ...

and workers need higher wages

costs of production go up

and producers and dealers need higher prices

and the vicious spiral of inflation gets started

but wages and salaries don't catch up with living costs

the spiral grows — and the sky is the limit

money buys less and less

hardship and confusion sweep over factory, farm and home

So...

a ceiling is set on prices

wages and salaries are controlled to prevent higher production costs from pushing up the ceiling

and excess profits are taxed away

and individual incomes are taxed more heavily

Victory Loans are launched

to pay the costs of war

supplies are divided fairly among producers and merchants

rationing is introduced to ensure a fair share to everyone

at prices within the reach of everybody

and nobody is permitted to take advantage of the war to get more than his share

while the boys are out there fighting

(This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation later.)

## Wartime Development

MANY VISITORS TO CANADA have been surprised and impressed by the magnitude of this nation's war effort. Since this continent is so far removed from the battle fronts, and since it has not been the object of direct enemy attack, it might be considered understandable if the visitor sometimes fails to appreciate the realities of the situation. This however, is not the case, and Canadians have appeared from the beginning to have been deeply conscious of the seriousness of the struggle in which we are involved, and to have been prepared to make every effort to hasten an Allied victory. It is now a well-known fact that Canada's contribution to the resources of the United Nations in manpower and materials is second to none, in proportion to our population.

### Labor Shortage Is Expected

here who are fourteen years of age, or older, are now either in the armed forces or at work. The contribution made by women who have gone into industries in order to release men for military service is demonstrated by the fact that 1,075,000 women were employed in October, 1943, as compared with 638,000 in October, 1939. It was generally believed that the peak period of demand for labor was reached in September, 1943, when 219,000 workers were required. It is now expected, however, that an acute labor shortage will be experienced during the next year, when there will be increased demands both from the armed forces and from industry. Estimated requirements for this period include about 98,000 for the armed forces, 250,000 for agriculture, 10,000 for munitions work, and 2,000 for basic metal mining. It is apparent that many difficulties will be encountered in meeting all these demands.

### Farm Problems Are Realized

all commitments for agricultural products at home and abroad. It is realized that no further reserves of manpower can be drawn from the farms if we are to continue to fulfill our obligations to our Allies by supplying them with vital food shipments. Of those in the eligible age group for military service, 145,529 have already been granted postponement for farm work. In addition, soldiers and airmen are given special leave to work on farms when it can be arranged. Canada now has the largest fighting force in her history, while her industries are developed to unprecedented proportions. Another Dominion Day is approaching, and we may observe it with the knowledge that we are assuming our full share of responsibilities during this critical period in world affairs.

## "Gentle way to stop constipation"

"Believe me, you should try ALL-BRAN for constipation—if it has the same cause mine had. For nothing I tried less than regular bran did the trick,"

No dosing—no nasty harsh powders given here. All you do—if your constipation is due to lack of bulk in your diet—simply eat KELLOGG'S ALL-BRAN regularly and drink plenty of water. This nutritious cereal helps to produce smooth-working "bulk," and prepares your body for elimination. You'll be happy to know which you'll want to stay regular. Eat tasty, toasty ALL-BRAN daily. Grocers have it in huge sizes. Made by Kellogg's in London, Canada.

### The Extra Cheer

Canada's Name Of "Tiger" Is Not Understood In Britain

One Canadian custom seems to mystify the English. When Canadians call for "three cheers and a tiger" not many British know what a "tiger" means.

According to Maple Leaf, the Canadian Army newspaper, here's how the order some brass-hat framed to take care of the situation:

"It was mentioned verbally some time ago that 'three cheers' for someone meant three cheers only and did not include 'tiger'. If an additional cheer is wanted, the command will be 'Four Cheers'. 'Tiger' will not be called for."

It is said that the troops do not call them Tiger tanks any longer, but "Four Cheer" tanks—Winnipeg Tribune.

### YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, dizzy spells, irregular periods, are weak, nervous due to the "middle-age" in you, then you should try Dr. Finkham's Vegetable Compound. It's been thousands upon thousands of women who report these symptoms. Finkham's Compound is also a fine stomach tonic! Worth trying! Made in Canada.

### Fanning Island

A Mid-Pacific Paradise Gets A Taste Of War

The first time the air raid warning sounded on Fanning Island, a mid-Pacific paradise peopled by charming healthy natives, they all flew to the slit trenches and settled down to wait.

It was a hot day so they put up gaily colored beach umbrellas left by peacetime visitors to keep off the rays of the sun. The horrified missionaries pointed out that the land was raised too brilliant.

After it was over, a stream of them brought their savings—\$50 in all—to the British administration to give to the King to fight the war. It was invested for them in war loans and when redemption day comes they hope to realize a life's ambition. All the men want bicycles and all the women sewing machines.

—Australian News-Letter.

### Doing Admirable Work

British Nurses Of The Air Have Very Dangerous Job

Although much has been heard of American flying nurses, little has been said of the admirable work done

by our own members of the A.A.F.

"Our wounded men lying down from the front are always accompanied by fully qualified nurses, no matter how dangerous the journey. Unlike American nurses, they have no flying training to prepare them for the job."

These nurses are drawn from the Queen Alexandra's Imperial Military Nursing Service. —London Daily Sketch.

#### RUBBER PLANTATIONS

Along the south coast of New Guinea 73 civilian planters, with many native laborers, are putting the rubber plantations back into harness, and expect to reach the pre-war output of 1,200 tons in the first year.

Enough lumber is used in crating each house to build a five-room house.

There are about 150,000 war refugees in Great Britain.

## Price Control And Rationing Information

Q.—Will the increase in tea or coffee ratios affect the ruling of only one cup of coffee or one serving of tea to one person at a time? A.—No. These restrictions remain in effect.

Q.—I read somewhere that blackstrap molasses was not rationed. Is that correct?

A.—Yes, but the "blackstrap" mentioned is not usually consumed by human beings and is customarily used for feeding stock. Molasses for cooking purposes is very definitely on the ration list.

Q.—Should I take my ration book to the hospital when I am ill? Is it necessary to take your ration book to the hospital unless you are going to remain there for two weeks or more?

Q.—Please advise me the correct amount of evaporated milk I may purchase with one coupon.

A.—Each "G" coupon is worth six fluid ounces—evaporated milk is usually put up in 16 ounce tins. Therefore you would surrender one coupon for six of these tins.

Please send your questions or your request for the pamphlet "Conserving Food" or the Blue Book (the book in which you keep track of your purchases) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

MADE IN CANADA AT NIAGARA FALLS

### Moving An Army

Description Of The Secret Transfer Of The 8th Army

A major from London's Chelsea district read aloud from Gibbon's "Decline and Fall of the Roman Empire" to keep himself and his colleagues awake. British 8th Army headquarters trundled across Italy at 10 miles an hour.

It was noon one March day when they set off from an Adriatic port to an olive grove over the Apennines more than 450 miles away. Before they reached the end of the journey, the major had read a large part of Gibbon's ponderous history.

The army's move along serpentine roads, through blizzard, snow and ice, was a feat of organization and planning without precedent in the Italian campaign.

It was carried out with clockwork precision, and apart from a few cold feet and number hands it was achieved without mishap.

A platoon of sappers equipped with bulldozers strengthened the roads, dug diversions for heavy traffic and reduced the wear and tear on some stretches by one-way driving.

The group commander said: "It was a most tricky move, because it was not known till it was well on its way which of the three alternative routes would be used on account of the snow."

"The men were warned that it would be very cold and were advised to be well muffed up," he said. "We beat the snow drift to the staging area for the night. Then the blizzard began."

"We got outside riders—jeep drivers and motor cyclists—into the houses first. Others slept in vehicles parked by the roadside or in buildings where available.

"We pushed on next morning with cars sliding along slippery roads and edging through deep snow. We drove at 10 miles per hour with 10 minute stops every two hours to stretch our legs."

"I have taken part in many long desert moves, but I have never been in a smoother handled mass movement across the backbone of a country."

### Have Lost Their Spirit

Lieutenant Beurling Says Nazi Airmen Now Refuse To Fight

Pt. Lt. George (Buzz) Beurling, flying in Canada for instructional duties with the R.C.A.F., thinks the "Germans are beaten," and says there's "no fun any more" because the German pilots won't fight. He declares the bombers are doing the real job.

But the Canadian fighter ace who has shot down 31 enemy planes, admits he's not a fighter for him self, he said in an interview.

"No, sir, you couldn't get me in a bomber for all the tea in China. They are too dangerous. There is nothing as safe as a fighter. Give me a fast fighter any day."

"The bombers are doing the real job. They're the ones who are putting Germany out of action. Fighter duels are just side shows compared to the continuous pounding of Germany by the bombers. The Germans are beaten. Why don't they admit it?"

"The inactivity over there was getting me down," he said grimly. "We never hunt the Hun any more. They've lost all their spirit. As soon as we spot one during the regular sweeps of the Channel, Ocean or France, Hitler or Belgium, he dives down and stays away."

"There's no fun any more. You can't shoot down Huns if they don't show up, can you?"

"Since I've been back in Britain from my last furlough, I've seen only three of them. When I say 'see' I mean hear enough to engage, and I was lucky enough to shoot them down. Yes, sir, Lady Luck rides with me right on my tail."

"I mean hear enough to engage, and I was lucky enough to shoot them down. Yes, sir, Lady Luck rides with me right on my tail."

### India's War Effort

Has Every Reason To Be Proud Of Its Achievement

High tribute is paid to India's war effort in an editorial in The Montreal Star which says: "It is doubtful if the public in Canada or United States has more than a vague idea of the great part India has played and is playing in the world conflict." Army, navy, air force, industry, agriculture, labor—figures issued by the Government of India information services in Washington are quoted to show the great effort.

"The figures are official and should serve to convince all save the purblind that India is behind the war effort heart and soul, and has every reason to be proud of its war achievement," the paper said.

Buster buried seven years was considered a rare treat by the early Scotch and Irish.

### Fire Protection

Victor Newman To Be Supervisor For Canadian National Railways, Western Division

Officer: In case of fire what do you do?

Recruit: I yell Cease Firing.

Hostess: Won't you have some more pudding, Sgt.?

Sgt: Oh, just a mouthful.

Hostess: Nellie, fill up the Sgt's plate.

Medical Professor: What would you do in the case of a person eating poisonous mushrooms?

Student: Recommend a change of diet.

"Sedentary work," said the college professor, "tends to lessen the endurance."

"In other words," the student butted in, "the more one sits the less one can stand."

"Exactly," returned the professor, "and if you sit a great deal one's standing is lost completely."

Junior: "Say, Dad, did you go to Sunday School when you were a little boy?"

Father: "Yes, son—regularly."

Junior: "I'll bet it won't do me any good either."

"What did your father say about smacking up his car?"

"Shall I leave out the swear words?"

"Certainly!"

"Then he didn't say anything."

Private:—What did you join up for?

Corporal:—I'm married, and I love war. What did you join up for?

Private:—for the same reason as you—only just the opposite.

Captain: I hope the next time I see you, you'll be a second Lieutenant.

Sgt: Yes, sir, thank you. Same to you, sir.

### DRUG ADDICTION

Dr. Lewis M. Hursthal, Boston, reported a new form of drug addiction, the secret taking of thyroid gland hormones, to the medical society of the state of New York. He said his experiences led him to believe that more people are taking thyroid for other than good medical reasons.

The first impression, made on a mind which is attracted or repelled according to personal merit or deformity, is a good detective of individual character. — Mary Baker Eddy.

A good man is the best friend, and therefore sooner to be retained; and, indeed, longer to be retained—with Jeremy Taylor.

We are more sociable, and get better with people by the heart than the intellect.—Bruyere.

The ideal society would enable every man and woman to develop along their individual lines, and not attempt to force all into one mold, however admirable.—J. B. S. Hal-dane.

GRASSHOPPER BAITS

According to Scientific Agriculture, grasshopper bait in which the carrier consists of one part by volume of low-grade flour to 13 parts sawdust has been equally effective as the more expensive bait of equal volumes of bran and sawdust, under conditions representative of the Northern Great Plains.

The first lifeboats were designed at the end of the 18th century.

## Would Set Up Canadian Radio Technical Board

OTTAWA.—Dr. Augustin Frigon, acting general manager of the CBC, told the commanding radio committee the CBC was ready to convene a meeting of interested parties for the setting up of a Canadian radio technical planning board.

Other highlights of the sitting, at which Dr. Frigon completed his testimony, were:

1. The committee deprecated the wording of a telegram from the Writers', Artists' and Musicians' war council which referred to committee members as "irresponsible". The charge arose out of the tabling at a previous session of a pamphlet charging the council with being left-wing.

2. The committee adopted a recommendation that the Social Credit party be included among the political groups granted free network broadcast time on the CBC in the period between elections.

3. Need for a national orchestra, band and repertory company for CBC broadcasts was suggested. Rev. E. G. Hansell (S.C., Macleod) said these organizations would be a good advertisement for Canada if they were to broadcast to the world from the new shortwave transmitters being built at Saskatoon, N.B.

Speaking about the "unfortunate loss" of several CBC officials to more remunerative posts, E. L. Bushnell, program supervisor of the CBC, said:

"I am afraid that it will always be the lot of the CBC to be a training ground for young, able and highly-qualified persons who move on to other remunerative positions in their chosen profession."

He replied to criticism which he said had been levelled at various phases of the CBC effort. He said it was with "considerable disquietude" he heard reports questioning the accuracy, responsibility and integrity of the corporation's news bulletins.

He said he suggested a careful examination of all the facts would convince anybody "that subject to the limitations imposed by the financial costs to the corporation and the limitations of time," the CBC is providing its shareholders with a news service that is unbiased and impartial—a service that is as factual and objective as any being broadcast anywhere in the world today."

He said he had investigated reports that responsible members of the CBC staff were interested in the advancement of a political party and had found the reports "as untrue as they were disturbing."

He referred to the work of the CBC in encouraging talent and said he denied "most emphatically" the charge "you have to have pull to get a job in the CBC."

He said the CBC had embarked on a quest of new authors, composers and playwrights.

"At the moment we are engaged in assisting composers in having their works published," he said. "We cannot afford to spend very much money on this project but, if we can arrange for a dozen works to be published each year, it will be well worth while." A small-sized list of musical works of a high standard that can and will be played in other countries, and from the performance of which Canadian composers will receive a fee for performing rights."

### SECURITY FORCES

May Need More Royal Canadians Mounted Police For Pacific Coast

OTTAWA.—Security forces of the Royal Canadian Mounted Police on the Pacific coast may have to be increased this year if the war tempo in that area increases, Justice Minister St. Laurent said in the commons.

There was always a possibility that the security forces which have been acting on the Atlantic coast will have to be duplicated on the Pacific coast, Mr. St. Laurent said in answering Stanley Knowles (C.C.P., Winnipeg North Centre).

### BROADCASTING LICENSEES

OTTAWA.—Transport Minister Mitchell, tabling a bill in the House of Commons for John Diefenbaker (P.C., Lake Centre), said that of the 62 applications made for radio broadcasting licenses last year, six were granted, 45 denied and decision on the remaining 15 was still pending. Decision is pending on two applications from Prince Albert and one from Gravelbourg, Sask.

### Chief Of The Nazi Anti-Invasion Forces

Field Marshal Rommel, chief of the Nazi anti-invasion forces, who is pictured here feverishly inspecting coastal defences. The "Desert Fox" is still Germany's white-haired boy.

## Post-War World Will Co-Operate To Keep Peace

LONDON.—Prime ministers of the British Commonwealth called for a post-war organization—possibly similar to the League of Nations—but armed with power to prevent aggression and violence."

Through the united voices of the five prime ministers, the British Commonwealth affirmed its desire that all countries help each other "to better and broader days."

The premiers spoke in a declaration drawn up at the close of their first war-time conference and released simultaneously in the commonwealth capitals.

The declaration was a combined assurance of the continued and strengthened unity of the commonwealth, a pledge of co-operation with the Allies in the way to victory and an invitation to all states to work together for the future.

"No one who marches with us shall be unloved" said the declaration in a special assurance to conquered allies.

Special mention was made of the "prolonged stubborn resistance" of China and the "famous deeds" of the forces of the United States and Russia.

The peoples of Europe and the Far East over-run by Germany and Japan were told it was the aim of the British Commonwealth that they "shall be free to decide for themselves their future form of democratic government."

Behind the short paragraph calling for a post-war world organization to maintain peace and security and endowed with the necessary power and authority to prevent aggression and violence" lay some of the most earnest and prolonged discussions of the conference which opened May 1.

The British government will confer with the Canadian and United States governments shortly on the form of the projected organization,

laid its proposals before the overseas prime ministers and gained their approval which opened May 1.

The declaration was signed by the five prime ministers of Britain, Canada, South Africa, Australia and New Zealand—Winston Churchill, Mackenzie King, Jan Smuts, John Curtin and Peter Fraser.

### RESEARCH PIONEER

Doctor Who Worked On Vitamin Concentrates Dies In Toronto Hospital

TORONTO.—Dr. Julius H. Carson, 49, a pioneer in the development of vitamin concentrates, died in hospital here. He had been ill for one week, suffering a stroke while driving his automobile.

Dr. Carson invented several vitamin concentrates and opened the first vitamin plant in Canada. Born in Brandon, Man., he graduated from the University of Manitoba and practised medicine in Brandon, B.C., and Prince Rupert, B.C.

He is survived by his widow, two sons, John in the Royal Canadian Navy, and Patrick of Toronto, and a brother, Sherman, of Hythe, Alta.

### SOME RELEASED

But Total Of 430 Japanese Now Interned In Canada

OTTAWA.—Justice Minister St. Laurent said in the commons that 430 Japanese now are interned, including 288 who are British subjects or are treated as such.

In April, 72 had been interned for a period through failure to immediately comply with removal orders given them in protected areas in British Columbia. Many of these had since been released from internment.

This conference suggests that, in addition, consideration be given to the provision of adequate shipping

## Canada Must Look Abroad For Wider Markets

HAMILTON, Ont.—The third foreign trade conference of the Canadian Chamber of Commerce issued a statement of policy endorsing a program for expansion and development of trade arrangements and all other international measures for the elimination of destructive tariff and trade wars.

The statement added the belief that realistic liberal constructive tariff and trade policies are conducive to greater trade and friendly economic and political relationships among nations.

"The Canadian tariff should be re-examined in detail as well as the regulations pertaining thereto, and a comprehensive and co-ordinated schedule prepared, consonant with the objectives of expanding trade and the fiscal policies of the Dominion," it said.

"Prior to and during the war, other impediments to and dislocation of trade have arisen and those arbitrary solutions to temporary conditions should not be allowed to develop vested interests in their continuance, but should be reduced and eliminated as rapidly as possible."

The statement recommended that the department of trade and commerce obtain additional well qualified personnel in preparation for an expansion of the department's services in post-war trade. All Canadian legations should be adequately staffed with qualified commercial attaches and additional offices should be opened at key points where there are possibilities for development of Canadian trade.

"This conference suggests that, in addition, consideration be given to the provision of adequate shipping

### Heads Division

Major-General B. M. Hoffmeister, 36, of Vancouver, B.C., commands a division of the Canadian Corps in Italy. He succeeds Gen. E. L. M. Burns of Westmount, Que., who went to Britain to head the 1st Canadian Army. A captain five years ago, he is the only Canadian general in Italy who was not a member of the permanent force before the war.

facilities for the movement of Canada's foreign trade overseas . . . Canadian business should not be competitively handicapped in entering new markets by lack of direct shipping routes.

International domestic uses must be found for Canadian farm products and intensive efforts must be made to re-establish old markets abroad and to develop new ones," the statement said.

**DESTROYED CHURCHES**  
LONDON.—Among Britain's 14,000 churches destroyed or damaged by bombings, only those of historic interest or special importance will be fully rebuilt, according to proposals published by the war damage commission and committee representing the Christian churches.

Buy War Savings Stamps regularly.

## Stress The Need For Rural And Urban Homes

WINNIPEG.—Dr. S. H. Prince, of Halifax, told a housing meeting of the Canadian conference on social work here that as long as Canadian cities have deplorable housing conditions, welfare workers will be fighting a losing battle.

"The state, school and church must join hands to build homes. In New Scotia we have long laid stress on the building of communities, not houses."

The common people of Canada have only to be helped and guided and they will develop undreamed of social and economic sufficiency. "They will build more than new houses, they will build new lives."

Any satisfactory housing scheme must co-ordinate and integrate various local plans, said Lionel Scott, of wartime Housing, Ottawa. "We must make possible in our homes the opportunities and outlets for the free development of a free people."

The home has been called the cradle of democracy. "If we wish to enjoy this democracy, we must be willing to assume responsibility. If we wish to enjoy privileges, we must be willing to assume obligations."

A. M. Moore, of Dauphin, Man., suggested that rural people centre their homes in one community. "Our rural housing problem is just as bad, actually and potentially, as the urban problem. The solution may lie in planned rural communities."

Dr. Kenneth H. Rogers, of Toronto, advocated a department of youth services as a new unit of city administration to combat juvenile delinquency. The department would be headed by a youth commissioner.

Establishment of an organization for retaining servicemen to meet the requirements of civilian life was suggested by Brig. J. C. Meakin, of Ottawa, Royal Canadian Army Medical Corps, in an address prepared for delivery to the conference.

"The armed forces assumed the responsibility of training citizens to be servicemen and the civilian industries are equally eminently successful," he said. "Would it not be reasonable in a similar organization, to which equal thought and planning were devoted, that members of the services could be retained to meet the requirements of civilian society?"

### FEED GRAIN

Reduced By Heavy Domestic Feeding And Shipments To U.S.

OTTAWA.—Canada no longer has a super-abundance of feed grains and the stockpile created by the bumper 1942 harvest has been "severely trimmed" by heavy domestic feeding and large exports to the United States, the Dominion bureau of statistics said in a review.

The reduction in the stockpile attracted attention to the indicated reduction in oats and barley acreage in the west this year together with "the none too favorable moisture situation" on the prairies, said the bureau.

"It is, perhaps, unlikely that eastern Canada, particularly Ontario and Quebec, will need the volume of western grain in 1944-45 that will be shipped to them during the current crop year," said the bureau.

Weather conditions during the balance of the 1943 growing season will supply the answer, but at least the eastern growers have increased their acreages needed to feed grains and the crop is off to a much better start than was the case a year ago."

"It is doubtful, however, if the prospective supplies of oats and barley in western Canada, based on current expectation, would be large enough in the 1944-45 crop season to meet a demand similar to that experienced in the current crop year without wiping out reserves."

"Statistics on which this assumption is based indicate that during the crop year 1943-44 a total of 360,000,000 bushels of western oats and barley will disappear as animal feed, as seed for the 1944 crop, and as exports to the United States."

### SHOW INCREASE

OTTAWA.—Canada's merchandise exports for the first four months of this year recorded a 33 per cent. increase over the corresponding period of 1943, the Dominion bureau of statistics reported.

LONDON.—The Anglo-Soviet Friendship Alliance has adopted on behalf of British youth the Pravda home, near Moscow, for Russian child victims of the war. 2568

### King Inspects Canadian Tankists Ready For D-Day

On a pre-invasion tour of Canadian formations in Britain, King George VI is shown inspecting N.C.O.'s and men of a Canadian tank unit. These men have been trained to the nth degree for the big job ahead. They have a debt to pay, too, for Canadian comrades who died in the Dieppe raid, dress rehearsal for the big attack on Hitler's fortress.

Coleman's tax mill rate has been set at 26 mills. The school requires \$56,000.

The Calgary Board of Trade, in co-operation with the Ministerial Association and Retail Merchants' Association, will hold a public service in the city from 11:35 to 11:55 a.m. on the day of the invasion.

Work at the Blairmore public cemetery was about completed last week end. All fences have been renewed and a general cleanup has been effected, which improves the general appearance very much.

Many local parties were hoping fishing would open on June the 1st, but what's the use—water is usually too high. Anyhow, word has already been received from the fish that they will be very choice in acceptance of bait.

The thirteen Canadian newswriters who went to Britain to cover Prime Minister Mackenzie King's visit and the conference of Empire prime ministers, may have to remain in the United Kingdom until after the invasion of Western Europe.

The precision squad of the CWAC, of Vermilion camp, will visit Coleman today. They will parade main street in the afternoon, and in the evening will give exhibitions of their drill efficiency. Following the drill they will proceed to the IOOF hall, where movies of the Battle of Britain will be shown.

*It's a good idea*

### To Enjoy

Sure! Go ahead and spend your dough!

Buy all the luxuries you want . . .

So what! The war is won!

But don't forget: You may have bought

A cross for someone's son.

—Luis Stockdale.

## Next! MOVIES THAT “LIVE AND BREATHE”

...the work of men who think of tomorrow

3-DIMENSIONAL MOVIES, they're called—so realistic that the characters seem to step from the screen and pass beside you. Planes roar out of the sky and into the very theatre. Flowers in a garden seem to spill their petals right into your lap. Every screen play is a vast and enthralling spectacle, so true to life you feel you are one of the actors! That's the movie of the future, being perfected now by Men Who Think of Tomorrow!

- Let us create Victory! Let us wrest it from the very soil we till, the very tools we use in our factories, the very dollars we earn! Keep up production rates, yes, exceed them. Buy more and more Victory Bonds and War Savings Certificates. Do anything and everything to help win this war.
- Let's all be MEN WHO THINK OF TOMORROW!

## THE HOUSE OF SEAGRAM

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Synthetic Rubber, Plastics, Drugs and many other wartime products.
